OBJECTIVE

2nd Year Computer Science undergrad seeking a challenging and rewarding internship opportunity as a Computer Science undergraduate student, where I can leverage my strong academic foundation, programming skills, and passion for technology to make a meaningful impact. With a keen interest in software development and a drive to learn and grow, my objective is to gain practical experience in a professional setting, work alongside experienced professionals, and contribute to innovative projects. I aim to deepen my understanding of industry best practices, enhance my problem-solving abilities, and refine my technical skills, while actively contributing to the success of the organization.

SKILLS

PROJECT

App development Projects(Flutter, Dart, FireBase, Rest Api)

Talke

Its a Flutter based Mobile app integrated with firebase and user authentication and login , signup .Its a group chat with Profile photo username and messages .([See the project here](#))

Places

Its a Flutter based Mobile app _where a User can save a place with a Title , a picture and the location of the place either my selecting your current location or selecting the location on the map. the place you save will appear on your dashboard with complete address of the place you can tap to open and see the image and location of the place and also as it is api of google map when You open the map and select the pin and open on google map you can also navigate to there through google map.this app saves data locally on your device .([See the project here](#))

Meal

Its a Flutter based Mobile app where there there is different category screen related to different types of food like italian etc. where you can select a category and it opens the list of the dishes available in the category from where when you open the dish you get list of ingredient's and process to make the dish . also this app has features like animations and filters where you can give filters like vegetarian, vegan etc and also feature of favouriting a meal. .([See the Project here](#))

SpendBuddy

Its a Flutter based Mobile app where a user can save their expenditure (the money they spent, category they spent on, title and they spent) .This show up on your dash board along with a graph that show relative spending in categories across last month and total money spent in current month and list of all your expenditure with title category amount and date it was spent on . also you can slide to delete it .this app saves data locally on your device .([See the Project here](#))

Rest other projects based on web development app development and other fields can be viewed on Github . ([click here](#))

EDUCATION

Bachelor of Technology Computer Science and Engineering

Indian Institute of Information Technology ,Sri City (IIIT) 2021-2025

CARRICULAR ACTIVITIES

Certification available on Linkdin profile .([Click here](#))

- Qualified Jee Mains (96 percentile) And Advance
- Qualified NTSE Stage 1 (Rank 9 in state)
- Qualified PRMO
- Completed HactoberFest
- Completed Google cloud computing Paths

EXTRA - CARRICULAR ACTIVITIES

- Won many trophies in different events in my School (Comprising of Skit, Dance, Sports, Singing etc)
- Played State tournaments in Football . Was a part of my School Team and Currently College team
- I also like Writing Articles , Poetry
